### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the methods recited in claims 1-8, 10-11 and 25-34 such as steps of adding a character or substring of characters, appending labels, ordering parameters and encoding value for each parameter, generating compact item descriptors, comparing compact item descriptors, a database, generating a commodity code, querying item description field, providing database entry, providing a part number, providing an item description field, providing supplier name, and providing supplier part number must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. Applicant is requested to review amended claims to ensure every feature is included in the drawings.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an

application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

#### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In **claim 1, lines 29-32** was changed to read as -- and comparing, by the computer, the compact item descriptor for the first item with the compact item descriptor for the second item wherein if the two compact item descriptors are the same then the items are interchangeable and if the compact item descriptors are different then the items are not interchangeable. --.

In **claim 25, line 1**, the phrase "A method to generate in a database system" was changed to read as -- A method executed by a computer to generate in a database system --.

In **claim 25, line 10**, the phrase "at each fork of the classification tree, labeling a character" was changed to read as -- labeling by the computer, at each fork of the classification tree, a character --.

In **claim 25, line 27** was changed to read as -- generating the compact item descriptor for the first item; generating a compact item descriptor for a second item; comparing, by the computer, the compact item descriptor for the second item with the compact item descriptor for the first item; and determining the interchangeability of the first item and second item wherein if the compact item descriptors are the same then the items are interchangeable and if the compact item descriptors are different then the items are not interchangeable. --.

**Claim 26 is cancelled.**

In **claim 27, lines 1-2**, the phrase “a second item” was changed to read as -- the second item--.

In **claim 29, line 1**, the phrase “A method to encode in a database system” was changed to read as -- A method executed by a computer to encode in a database system --.
